CONFIDENTIAL

22. [] Talked to Ina Gartin of OMB on S. 1289 and asked her if there had been any progress in the Administration's efforts to limit the bill to formal regulatory proceedings. She said that as far as she knew, there had not been and promised to keep me informed from her end. I asked her who was handling S. 1210, Kennedy's FOI Act Amendments, she told me she would have Bill Skidmore get in touch with me.

23. [] After consulting with [] I called Mack Redwine at the Legislative Counsel's Office at the Department of Justice to determine Justice's position on S. 495, the Watergate Reform Act, which we have been asked to comment on. Redwine said he would be glad to forward Justice's comments to us as soon as they had been completed.

24. [] Ralph Malvick, OMB, called in regards to our package to amend CIARDS. He asked if the Agency had made a inflation impact judgment on the legislation in accordance with OMB Circular No. A-107. I told him I was certain that a judgment had been made that the proposal would not have an inflationary impact since it was cleared with our Comptroller. He asked that a short statement to that effect be submitted for the record. I subsequently discussed this with [] O/Comptroller, and he confirmed they had reviewed the proposal in accordance with the OMB circular and saw no inflationary impact.

26. [] Received a call from Frank Robinson, on the staff of Representative Charles B. Rangel (D., N. Y.), who asked for the address to which a constituent could write regarding his FOI request. I gave him the FOI Coordinator's address.
